

## Mini Conference Proceedings

### Proceedings Five

## Inner Peace & Social Harmony

The papers that comprise Proceedings Five are based on presentations given at the fifth Biological Physics and Meaning Mini Conference on '*Inner Peace & Social Harmony*' (held online, October 2024).

This body of insight introduces the reader to a peace propagation process and intentional way of acting in this world that opens a door to the spiritual and human potential development necessary to steer conscious human-machine interactions and social interactions and contracts towards individual inner peace, self-responsibility and self-governance, regional and planetary peace and social harmony.<sup>1</sup>
