The Dawn of Higher Consciousness

Huping Hu* & Maoxin Wu

ABSTRACT

This issue marks the one year anniversary of the maiden voyage of Journal of Consciousness Exploration & Research ("JCER") as a vehicle for scientists, philosophers and other learned scholars to publish their research results and express their views on the nature, origin and mechanism of consciousness. Here we briefly summarize the past and discuss the future of this journal and the publisher behind it. We hope that in the coming years all genuine truth seekers shall become clear in our eyes, resolute in our hearts and swift in our steps on the sacred path of consciousness exploration and research. We urge all to strive for the realization of higher consciousness in ourselves.

Key Words: JCER, dawn, higher consciousness, consciousness, exploration, research.

1. Publisher

Journal of Consciousness Exploration & Research ("JCER", ISSN: 2153-8212) is published by QuantumDream, Inc., a New York corporation established in August, 2003. The company also publishes [Prespacetime Journal](#) and [DNA Decipher Journal](#) and will be exploring a fair and feasible fee model for these journals at some point in the future. Its other corporate activities include R&D and consultation. We are committed to truth and excellence at JCER.

2. The First Year (2010)

In 2010, JCER published eight (9) issues containing one hundred and nine (109) pieces of writings from sixty-five (65) authors as shown below. The substances of the said pieces are diverse and may be summarized as substantial efforts in exploring and studying consciousness based on various approaches.

3. The Coming Years

This issue marks the one year anniversary of the maiden voyage of Journal of Consciousness Exploration & Research ("JCER") as a vehicle for scientists, philosophers and other learned scholars to publish their research results and express their views on the nature, origin and mechanism of consciousness in this exciting new decade of the 21st Century.

Although JCER has had a great first year, much more remains to be done by all the truth seekers. We hope that in the coming years all genuine truth seekers shall become clear in our eyes, resolute in our hearts and swift in our steps on the sacred path of consciousness exploration and research. We urge all to strive for the realization of higher consciousness in ourselves.
